EC-4

Emergency Caller Wireless Dialer

Medical alert systems can help keep you or your loved ones safe and protected in an emergency situation. In some cases, they can literally become the difference between injury or worse. While it may seem like a small purchase, buying a medical alert system can be overwhelming and confusing if you don't know the right questions to ask or the right things to look for in a medical alert system.

Our System has No Monthly Monitoring Fees. You are in Control of Who Receives the Emergency Call or Text Message and Related Response.

If number called by Emergency Caller is answered by your family or friend, you can speak with your family or friend to communicate your condition and emergency in person. You must be within a reasonable distance of Emergency Caller base unit to use this valuable feature.
